**Address**
Basaksehir/Istanbul/Turkey

## Education

- Workintech – Full Stack Development Program   Duration: 6 Months / 960 Hours Completed 78 Projects
- Marmara University – Bioengineering
- Marmara University – English Preparatory Class Level: C
- Vefa High School
- (1 Preparatory Year + 4 Years of Education)

## Skills

- Software Development
- Git / GitFlow
- JavaScript / Java / Node.js
- React.js / React Native / Redux / Context API / Hooks
- Front End Development
- HTML5 / CSS3 / Tailwind CSS / Responsive Design
- Axios / JSON / API Integration
- Cypress.io
- Algorithms / Problem Solving / Debugging
- Software Documentation
- Deployment
- Database Management
- WordPress
- Visual Studio
- Figma (UI/UX Design)
- Teamwork
- Agile Development

## Language Skills

- English C1
- German A1

  Senior Software Developer

## Personal Profile

Graduated from the Bioengineering Department at Marmara University, where I developed strong analytical and problem-solving skills. My passion for technology led me to specialize in Frontend Development through comprehensive training programs.Proficient in HTML, CSS, and JavaScript, with experience in modern frameworks like React and Tailwind CSS.

 I focus on delivering user-centric (UX) designs and building functional, engaging web solutions. Adaptable and detail-oriented, I excel in learning new technologies and collaborating effectively in diverse environments.

My goal is to contribute to innovative software projects and grow as a frontend development specialist, offering efficient and creative solutions.

## Work Experience

- **Workintech -  Full Stack Developer Trainee**
   2024 – 2025

As a Full Stack Developer Trainee at Workintech, I gained experience in Software Development using technologies like JavaScript, HTML/CSS, React.js, React Native, Redux, TailwindCSS, and Cypress.io. I developed both frontend and backend applications with Java, Spring Boot, Node.js, SQL, PostgreSQL, and Hibernate. I worked with Git, GitFlow, and followed Agile Development methodologies. I implemented responsive designs using CSS3 and TailwindCSS, and worked with JSON, Axios, Context API, and Redux for API integrations. Additionally, I contributed to Debugging, Deployment, and Software Documentation, while focusing on Problem Solving and Algorithm improvements. I also integrated AI solutions using Java, Spring Boot, and PostgreSQL, and used Figma for UI design.

- **Intertek Turkey – Intern**
   Summer 2023

During my internship at Intertek Turkey, I gained hands-on experience in Molecular Biology Research and Data Analysis, utilizing techniques like GC, GC-MS, HPLC, and ELISA for sample analysis. I contributed to GMO testing and ensured accurate reporting and adherence to quality control protocols, while actively supporting the preparation and evaluation of laboratory experiments and technical reports.

- **Pfizer – Online Internship Program**
   Winter 2023

During my online internship at Pfizer, I gained experience in Project Management & Design and contributed to Digital & Online Marketing strategies. I helped improve Sales & Communication strategies in the pharmaceutical industry and supported the development of marketing campaigns. I was exposed to Drug Discovery & Development and Pharmaceutical Sales & Distribution processes, while collaborating with Pharma Companies to enhance operational efficiency.

- **Patent Owner of a BUO Medical Product**
   2022-2023

 As the patent owner of a BUO medical product, I was responsible for Patent Development, Project Management, and overseeing the product's Advertising & Marketing Strategy. I played a key role in the creative direction, product design, and drawing, ensuring that the product met industry standards and market expectations.

- **Değiştiren Adımlar Association – Human Resources Management**
   2021-2022

 I contributed to HR management, Strategic HR, and Human Resources Development using HRIS. I supported Communication and Corporate Communication strategies and managed Social Media and Human Rights initiatives.

## Additional Skills

- Project Management & Teamwork
- Design & Creativity (Canva, Frontend Development)
- Problem Solving & Innovation
- Research & Analysis
- Effective Communication
- Social Media Strategy
- MS Office (Word, Excel, PowerPoint)
- Matlab & Pymol
- Process Flows

## Certificates

- Frontend Development, Workintech
- Frontend Developer,React, Hackerrank
- React.js v18, BTK Academy
- Microsoft & Kodluyoruz – Let's Transform with Artificial Intelligence
- Code The Future, Talentcoders
- BOĞAZİÇİ Defense Industry Summit , Boğaziçi University
- Renkli Kampüs 7. Dönem ,Değiştiren Adımlar Graduation
- Participation in National Chemistry Congress
- Participation in the National Molecular Biology and Biotechnology Congress
- Food Science Day, Anbean Campus

## SOFTWARE PROJECTS

- **Pizza Order Website** – Built a responsive pizza ordering app using React. Developed UI components, optimized state management, with CSS modules and React Router.

  **Web App | Github**

- **Personal Web Portfolio** - Built a modern and interactive portfolio to showcase projects and skills. Used React Hooks and Context API for efficient state management. Styled with Tailwind CSS, ensuring a clean and scalable UI. Integrated Toastify for real-time user notifications. Designed a fully responsive and mobile-friendly layout.(React, HTML, CSS, Tailwind CSS, Hooks, Context API, Toastify. )

  **Web App | Github**

- **E-commerce Web site** - Unser Shop is a modern e-commerce platform where users can buy products, place and manage orders. It offers a secure and practical shopping experience with its user-friendly interface and powerful infrastructure. It includes basic features such as product management, user accounts, cart functionality and order tracking. Users can register and log in, search for products by filtering them by categories, and easily purchase the products they add to their carts. Thanks to the admin panel, products and orders can be tracked and managed. The project is developed with HTML, CSS, JavaScript, React.js and ShadcnUI, and RestAPI is used on the backend.

  **Web App | Github**

## Extracurricular Activities

- BİYOM Board Member (2019–2024) – Supported organizational initiatives and activities.
- Member of Marmara University American Football Team (Marmara Royals)
- Cinema Club Board Member (2019–2020) – Organized events and contributed to film analysis.
- Camping Enthusiast (2018–Present) – Engaged in outdoor activities, developing leadership and organizational skills.
- Table Tennis Team Member (2013–2016) – Represented school in tournaments, fostering teamwork and dedication.
